

REPORTING AND MONITORING

Reporting

Clinton County Regional Educational Service Agency (CCRESA) has a responsibility to monitor Strong Beginnings program quality and will accomplish this through reports from, interviews and focus groups with members of the pilot teams as well as fiscal and program monitoring. Through these mechanisms, the ISD assures compliance with all reporting requirements. If the ISD fails to comply, CCRESA may withhold up to 100 percent of the allocation until the ISD meets compliance. All current assurances can be viewed in the Strong Beginnings Resource Documents.

Programs utilize systems developed by the CCRESA Implementation Team and the MSU Research Team and their applicable program evaluation tools for submitting data. ISDs may also be required to submit data to early childhood system data collection efforts such as Child Care Licensing and Great Start to Quality data collection efforts. To ensure a systemic use of data collected, it is essential that data be accessible and easily connected across multiple systems. The naming conventions that are used with CCRESA and MSU must be consistent with licensing and used in the other reporting systems required for Strong Beginnings (see Program Evaluation below).

The following table details the anticipated required submissions for each Strong Beginnings pilot. This schedule may be altered due to conditions and experience and firm due dates will be emailed to participants approximately four weeks before a report is due whenever possible.

Program Evaluation

The following naming conventions must be used when creating the hierarchy used in PQA-R:

- Program Provider Name is the same as Subrecipient Name that is used for GSRP on the program evaluation hierarchy.
- Site/Center is the Site Name that is used for GSRP on the program evaluation hierarchy. If the site is used only for Strong Beginnings, use the name as it appears on the license.
 - Duplicative site names should include city after facility name (ABC Childcare-Lansing) and if there are still duplicates then the street name should be added (ABC Childcare-Lansing-Allegan St)
 - Classroom Name includes license number followed by teacher last name
- Classroom Name includes license number followed by teacher last name (DC123456789 – Last name)
- Classroom name within hierarchy must match name used in STARS

If PQA-R is selected as the program evaluation tool, when entering End of Year program evaluation data in PQA-R online, please ensure that:

- Data is entered in the system that is shared with MDE if an ISD utilizes multiple data collection systems
- Strong Beginnings is indicated as the program setting
- Teaching team last names are entered on the individual assessment where requested

ISD Monitoring of Program Providers and Family Partnership Process

The ISD is responsible for monitoring program providers and for implementation and compliance with written policies and procedures for fiscal and programmatic guidelines. ISDs must develop a systematic approach to monitoring program providers and Family Partnership Process service providers for adherence to both fiscal and programmatic requirements. A written record of such monitoring must be shared with the program provider and/or Family Partnership Process service provider upon completion and made available to CCRESA during either a programmatic or fiscal review. The written record must include signatures of both

the ISD monitor and a representative of the program provider and/or Family Partnership Process service provider and must also be accessible on site at the ISD. Refer to the ISD Administration of Strong Beginnings section of this manual for additional information.

CCRESA Monitoring of ISDs

CCRESA has a monitoring process, which is focused on the ISDs as Strong Beginnings partners. Monitoring covers the programmatic, administrative and fiscal aspects of the ISDs as Strong Beginnings contractors and any program provider and Family Partnership Process service providers. Each ISD receiving pilot Strong Beginnings Funds is expected to be monitored.

On-Site Monitoring Visits

A CCRESA fiscal monitor, consultant, or combined team may conduct on-site monitoring visits to the ISD to ensure compliance with state policies and program requirements as they relate to fiscal and programmatic management of the grant.

Monitoring can be programmatic and/or fiscal and cover the work of the ISDs as Strong Beginnings subcontractors, program providers and Family Partnership Process service providers. A fiscal on-site review is an extensive review of all financial records that pertain to Strong Beginnings funds.

A programmatic monitoring visit is a review of compliance with all other requirements. If there are specific concerns regarding ISD operations, an on-site monitoring may be done through a focused review. This type of review is an examination of records that relate to Strong Beginnings with a focus, such as reviewing only all program providers' contracts or all staff credentials.

CCRESA will use a combination of interviews, electronic and on-site records, and reports, and sampling of the ISD's and/or program provider and/or Family Partnership provider program and fiscal documentation to complete the monitoring process. The resources for this section include several documents, which support program and fiscal monitoring
