

Infant Mental Health and You Monthly Series

Supporting Children and Families

Using the Ages and Stages Social Emotional Questionnaire (ASQ-SE)

Thursday, 02/04/16, 5:00 – 7:00 PM

This "stand alone" workshop is part of an Early Childhood professional learning series being offered on the first Thursday evening of every month.

The facilitator for this event is Karen Anthony. The ASQ-SE2 was developed as a companion tool to the ASQ in order to address the need for age-appropriate tools to monitor the social and emotional domain of development of very young children and to determine if the parents and child would benefit from behavioral supports and/or referrals. During this session we will learn how to interpret the ASQ-SE2 results, understand the importance of sensitive communication of screening results, and discuss the process for referring children to appropriate agencies.
